Zavfino 1877 Tera Nova ZV9X

Platenspelers

Technische specificaties

Merk	Zavfino 1877
Model	Tera Nova ZV9X
Productcategorie	Platenspelers
Bediening	33.3 rpm / 45 rpm Electronically selectable Fine pitch speed adjustment 100-240 V, 50/60 Hz
Plint	Material: Solid aluminium with POM isolation damping plate Dimensions: 470 x 420 x 70 mm Thickness: 16.20 mm Edge-angle damping design Drie aluminium feet with adjustable brass spikes
Plateau	Material: CNC-contoured POM composite Thickness: 60 mm Diameter: 298 mm Weight: 6.2 kg Bearing: Inverted bearing with stainless steel axis Teflon thrust plate Bronze coupling Silicone ring suspension
Motor	9V low-torque 50/60 Hz with POM pulley Motor assembly: Solid aluminium, 1.8 kg Detachable control cable Rubber isolation foot

Technische specificaties

Toonarm	Included tonearm: Aeshna 9.5" Bearing: Knife-edge / ceramic bearings Construction: Aluminium / carbon fibre / titanium hybrid construction Effective mass: approx. 8.5 g Suitable for demanding MM and lighter MC cartridges
